Luca Raciti

Computer Science Student (Big Data) · Seeking a Data Analyst / Data Science internship

lucasaidraciti@gmail.com · linkedin.com/in/raciti-luca · github.com/RacitiLuca · racitiluca.github.io/portfolio

Tunis — mobile: France, Switzerland, Canada

EU citizen (Italian passport) — no visa or work permit required in the EU

Available for a final-year internship from late January 2027 — duration: 3 to 4 months

PROFILE

Final-year Computer Science Bachelor's student (3-year degree, Big Data major) with hands-on work experience in Canada: Salesforce CRM, data quality, dashboards and development of a web platform for lead tracking. I am looking for a final-year data internship (analytics, BI, data engineering), ideally followed by an apprenticeship during my Master's.

PROFESSIONAL EXPERIENCE

Data & Development Intern — Salesforce CRM

Jul. – Sep. 2026 (2 months)

KF Gestion financière — life & health insurance firm affiliated with iA Financial Group · Blainville, Quebec, Canada

- **Designed and built a web platform for lead generation and tracking** (Next.js, SQLite/Turso, Vercel): centralized leads, interaction history, client follow-up.
- **Data quality:** detected duplicates, corrected and standardized client records in Salesforce.
- **Salesforce dashboards and reports:** tracking of leads, appointments, activities and pending tasks.
- **Follow-up automation:** set up reminders and simple processes to organize the firm's daily activity.
- **Client file management and compliance in the CRM** (traceability, supporting documents); trained in personal data protection and access management.

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate (PL-300) — *In progress — exam scheduled for December 2026*

ACADEMIC PROJECTS

E-commerce Big Data pipeline — Hadoop MapReduce

2025

- End-to-end Python + Java pipeline on WSL: HDFS ingestion, MapReduce jobs (sales, categories, trends); set up and debugged the HDFS/DataNode cluster.

SmartEdu — Multi-role education platform

2025

- React, TypeScript, Supabase (PostgreSQL): authentication and role-based access control with PostgreSQL triggers; fixed a frontend/database race condition.
- Deployed on AWS EC2 (Ubuntu 22.04) with Nginx as a reverse proxy; configured SSH and security groups.

TechVest — Tech investment platform

2024 – 2025

- Object-oriented Java (inheritance, polymorphism, business exceptions), SQLite persistence, CSV import, UML design.

Student management application — PHP MVC

2024 – 2025

- MVC architecture, sessions and multi-role authentication, Twig, PDO/MySQL; UI redesign with Bootstrap 5.

EDUCATION

Bachelor's in Computer Science & Information Systems — Big Data major

2024 – 2027 (ongoing)

TED University (ISP TED) · Tunis, Tunisia

Big Data (Hadoop), AI, Data Mining, Statistics, Databases (SQL, PL/SQL), Java OOP, Web, Networks, Cloud. Internship in semester 6.

French Baccalaureate

2023

Majors: Mathematics, Computer Science (NSI), Economics & Social Sciences (SES) · Tunisia

TECHNICAL SKILLS

Data & BI: SQL · Power BI (DAX, Power Query) · Salesforce (reports, dashboards) · Hadoop HDFS / MapReduce

Languages: Python · Java · JavaScript / TypeScript · PHP · Bash

Web: React · Next.js · Node.js · Symfony (MVC) · Twig · Bootstrap

Databases: MySQL · PostgreSQL (Supabase) · Oracle (PL/SQL) · SQLite / Turso

Cloud & DevOps: AWS EC2 · Vercel · Nginx · Linux (Ubuntu Server) · Docker (basics) · Git / GitHub

Networking: VLAN · Trunking · DTP · Cisco IOS · TCP/IP · OSI model

Tools: IntelliJ IDEA · VS Code · WSL

LANGUAGES & INTERESTS

French: bilingual (C2) **Italian:** native (C2) **English:** fluent (C1) **Arabic:** native

Sports: boxing, basketball · **Chess** · **Tech watch:** AI, cloud, finance · **Travel:** Italy, France, Belgium, Canada, Morocco, Germany
